FINANCIAL AND COMMERCIAL. Monoay, August 28-6 P. M. The first of the ten o'clock sessions of the open board took place this morning, when a moderate amount of

business was transacted, at the following prices:-Old ive-twenties 106%, Eric 87%, Hudson River 109%, Reading 105%, Michigan Southern 64%, Rock Isla 10834, Fort Wayne 97. At the first session of the regu-lar board the market was rather dull, but steady. Michi-gan Southern closed 34 higher than at the first board on Saturday, Rock Island 1/2, Prairie du Chien 1/4, Quick-silver 1/4; Eric and New York Central were unchanged; Reading was 1/2 lower, Cleveland and Pittsburg 1/2, Ohio and Mississippi certificates 14.
Government securities were firm at Saturday's prices.

One year certificates advanced  $\frac{1}{2}$ . Five-twenties of the old issue sold at 106%. The latest London advices report the latter at 68 a  $\frac{1}{2}$  on the 17th inst., and 68 on the 18th. At the open board at one o'clock the market was about ½ per cent lower. At the second regular board it was dull, but steady. Eric closed % lower than at the first heard, Reading ¾, Cumberland ¾, Quick silver ¾. Rock Island and Ohio and Mississippi certificates were unchanged. Cleveland and Pittsburg was 1/2 higher, Northwestern 34. Government securities were inactive. Coupon

ten-forties declined 1/2.

At the open board at half past three th market was heavy and prices underwent a further recession. New York Central closed on the call at 92%; Erie, 86%; Michigan Southern, 64; Illinois Central (83), 122%; Cleveland and Pittsburg, 70%; Northwestern, preferred, 62%; Ohio and Mississippi certificates, 24%;

attributable in some degree to the sales made at the close of last week by the leading member of the Eric bull clique. The sales are supposed to have consisted of a large portion of the stocks, Eric excepted, which were thrown upon him by the Ketchum and Graham failures, and some of these fell into the hands of weak holders to day. The main object of the Broad street party in buying Eric while they are selling other stocks is to sustain the general market at the cost of supporting Eric only. Moreover, the leading member of the clique referred to is preparing to fortify his position, with a view to re-election to the directory of the company. The books of the latter, it is stated, will be closed on the 10th of Sep-tember in preparation for the election, the precise time of which is not yet fixed. That a prominent director of one of our most important lines of railway, who habitually makes it his business to manipulate the stock of his own company in Wall street, should have his re-election opposed by those of his codirectors not of his own party,

is hardly a matter for surprise.

The petroleum stock market was steady at the first board, the chief activity being in Zack and Pithole Creek. The former closed on the call at 39c, and the fatter at \$8 75. Webster sold at \$1 75, Buchanan Farm 63c., Bradley (b5) \$3 10, Cherry Run 23c., Heydrick \$1 90, Heydrick Brothers \$1 35, United States \$27 80, Oceanic 90c., Oil Creek \$3 00.

The gold market was firm, but inactive. The opening

price was 143%; from which there was an advance to 144%, followed by a relapse of 14, and a recovery at the close to 144.

The transactions in foreign exchange have been very light, but rates are steady. Bankers ask 109% for their sixty day sterling.

The easy condition of the money market is reflected in the statement of the associated banks for the week. The deposits show an increase of \$4,400,660, and the legal tenders of \$8,665,818. This indicates an absence of dis-trust on the part of the country banks and others in the interior having balances to their credit here. It was feared when the Ketchum suspension was announced that there would be a rapid withdrawal of funds from this point owing to a loss of confidence; but the efforts banking and other financial institutions of this city to avert a panic were promptly seconded by those is the targe reduction of \$3,580,021 in specie. This is owing to some extent to the withdrawals for cotton purthe South; but it is also partly due to the on of some of Edward Ketchum's forged gold checks from the count. And it may be that the Cle ing House is endeavoring to check the practice which has prevailed of counting a portion of the gold lodged in has prevaised or counting a portion of the gold lodged in the Bank of New York twice. The banks now acknowl-edge holding only \$16,023,615 in specie. The conserva-tive policy pursued both by lenders and borrowers during the week has resulted in a decline of \$1,404,276 in loans.

The motion for an injunction to restrain Sherida and Mr. Gilbert, the assessor, from assessing the tax on brokers' sales made on their own account, was argued at Cooperstown, on Friday and Saturday last. The Judge reserved his decision.

There is a general desire expressed in Wall street of his crime, and the course Mr. Onkey Hall, th District Attorney, pursued in preferring the complaint of forgery against him in the absence of a private prose-cutor is highly commended. The prisoner, as the law reports will show, was remanded till Monday next for nation. The parties whose names were forged are, tion, and look upon a subpense as a nuisance. Wall street men are, by the force of habit, the reverse of litigious, and only where important interests are at stake are the disposed to enter a court of law. But in a case of this kind something more than utter indifference might be

The Chicago Republican of the 25th remarks:-The money market remains without any new features to-day. The demand, as noted in our last report, continues good, in fact, active, and the market is reported close and firm by all, or nearly all, the leading discount houses. The demand for money is mostly from speculators and shippers in and of grain. Good paper is discounted readily at the banks at ten per cent, but doubtful securities are difficult to negotiate on any terms. Our produce markets were irmer to day, and there was a good business done in the aggregate at improved values.

The earnings of the Marietta and Cincinnati Railro Company for the third week in August were:-

The Union Place Hotel Suicide

Coroner Collin yesterday renewed the investigation previously commenced in the case of Mr. Edward C. Andrews, whose death was the result of injuries re-ceived by jumping from a fourth story window of the Union Place Hotel, on the evening of the 20th inst., while suffering from delirium tremens. The only wit-

ness examined was the brother of deceased, who testined as follows:—

Henry R. S. Andrews, being duly sworn, says—I reside at No. 608 Broadway; I am brother of deceased; I was informed about eight o'clock on Sunday evening, the 20th inst, of my brother's illness at the Union Place Hotel; I went up there and found him in a high state of fever, very delirious; I sat down on the bed with him: deceased requested me to get him a glass of ice water; I went into the sitting room, and during my absence he jumped from the window; it is on the fourth story; I sent directly for Dr. Newby; I immediately ran down stalrs; he was taken into a bedroom on the first floor; I sat up with my brother all that night; he was able up with my brother all that night; he was able to converse but feebly; he seemed to improve the latter part of the night, and was able to cat some soup in the morning; I did not see much of him until Monday a teranoon; he was then just about on the point of death; I went out and telegraphed to my sisters; when I re-turned he was dead, and they were making a post mor-ten examination.

I went out and telegraphed to my sisters; when I returned he was dead, and they were making a post mortem examination.

There being no further evidence to introduce the case was aubmitted to the jury, who rendered a verdict as follows:—

"That Edward C. Andrews, the deceased, came to his death by injuries caused by jumping from the window of the fourth floor of the Union Place Hotel, while laboring under a temporary fit of insanity; and the jury censure Dr. George Newby for not giving the indirect cause of death, and also condemn the practice of physicians in giving indiscriminately certificates of burial without stating both the direct and indirect causes of death; and we further call the attention of the City Inspector to the fact that the proper person to grant burial permits should be a qualified and responsible physician, and not an undertaker, as the purport of the Revised Statutes is to prevent the power of granting burial permits from passing into the hands of undertakers.

The clause in the Revised Statues referred to by the jury may be found under the laws concerning the demostic relations, section 24 of chapter 8, and provides that "Physicians who have attended deceased persons in their last illness shall, in the certificate of the decease of such person, specify, as near as the same can be ascertained, the name and surname, age, occupation, term of residence in said city of New York, place of nativity, condition in life, whether single, married, widow or widower; color, last place of residence, and the direct and indirect cause of death of such deceased person; and the coroners of the city and county of New York, in such access as an inquest may have been held, shall, in their certificates conform to the requirements of this section of this section the section of the section of

of this act."

Any physician who shall neglect or refuse to comply with the provisions of the act is subject to a fine of fifty dollars for each offence, one-half of which sum goes into the county treasury and the other half to the party making the complaint.

The deceased was forty years of age and a native of Margandriette.

Sergeant Richard Lush, of the Fifth precinct, came near losing his life at a late hour on Sunday night. It appears that while on the corner of Church and Lispenard atreets, in the discharge of his official duties, the Sergeant was startled by hearing the report of a pistol, the ball from which whitzed by in close proximity to his head. Sergeant Lush instantly turned around and observed a man on the corner of Church and Canal streets. He pursued and arrested the individual, who held in his hand one of Smith & Wesson's six-barrelled revolvers, five of the chambers of which were heavily loaded with powder and ball. At the station house the prisoner pretended to be stupidly drunk, and declined giving his name. He subsequently said his name was John Byhard, that he was twenty years of age, and a native of Germany. The prisoner declined making any statement concerning the shooting, and Alderman Norton, before whom he was arraigned, committed him to the Tombe for trial, in default of \$1,000 ball.
